Most of the folder icons that are included in this pack are grouped in categories that will help you organize your collection and make it easy to use. Some of the categories are: Mail Main Window Tools Networking Other Enjoy! About the creator: If you ever wondered why I designed the series of some of the macros that I do, I want to let you know the background of my decisions. I started working on visual programming in 2007. Since then, I have designed about 50 different applications that includes some of the most complicated ones

for Symbian OS, for example, the UI Design applications for an SMS gateway I am working on. I have also designed many other applications that help me organize my time, file processing, and much more. And of course, macros are one of the solutions that I use in this line of work. Permission to use this product: You can use this product freely in any way that you can use any other Icon pack. Home Folder is a powerful yet elegant system to create desktop icons. KeyMacro Description: Create a Folder with icon by number and apply it to a dock (or desktop) app by using your keyboard. Run the Keymacro using your keyboard. Save a Number as a PNG file. Get a Number as a PNG file. There is a 5-minute video with all the tips on how to use the product and how the product works. Also, I have put some written instructions that will help you to put this Folder Icon skillfully into use. The Folder Icons that are included in this pack can be categorized into 3 different categories as they all follow a template to create the icons: 1. Personal Folder Icons 2. Networking Folder Icons 3. System Folder Icons Each category includes many icons that can be customized with different colors and styles. The appearance of the icons also can be easily changed from the source icon and the appearance settings. Also
